

Dear Mr/Madam/Colleagues,

Greetings to you.

Udayana University, in collaboration with Universiti Teknologi Malaysia, organizes the 5th International Conference on Biosciences and Medical Engineering 2023 (ICBME2023) & the 2nd International Conference on Innovative Agricultural Technology (ICIAT) 2023. This joint conference aims to showcase significant advancements in Nanotechnology research in Biosciences & Medical engineering and sustainable agri-food systems in agricultural technology. For your information, we have attached the conference flyers to this email.

We fully anticipate that the participation and contributions of researchers and stakeholders are valuable assets to the event's success. The program and the decision-making quality of the conference especially benefit through the input of the diverse point of view, competencies, and experiences of all invited speakers, researchers, and attendees.

In addition, to enhance the student's creativity and critical thinking we organize Agritech Video Competition "Advances in Agricultural Technology: A New Entrepreneurship Approach" We attach the information for all the events to this email.

We look forward to your participation and welcoming you to Bali, Indonesia.

Please check for detailed information for ICBME at <https://research.utm.my/csnano/icbme-2023/> and for ICIAT at <https://ftp.unud.ac.id/pages/iciat>

In the case of any questions, please don't hesitate to contact us via atconference@unud.ac.id or icbme@unud.ac.id or WhatsApp at +6281246257722

Sincerely,

DR. IDA BAGUS WAYAN GUNAM
